Get Under a Kuloff Shower

Only a small proportion of homes enjoy the advantage of shower baths. Why? We'll tell you why!

First—The old-fashioned overhead showers cost too much.

Second—They are not used because they pour the water on the top of one's head, causing nerve shock to the average person.

The "Kuloff" Portable Shower is attached to the bathtub in a few minutes, without help of the plumber, and can be just as easily detached and carried in suit case or handbag.

The "Kuloff" can be regulated so as to send the 160-needle shower to any angle of the bather's body and it can be taken hot, lukewarm or cold, as you desire it.

The "Kuloff" is made entirely of the finest brass material, finely nickel-plated—an ornament to any home, no matter how pretentious.

The "Kuloff" Shower plays its cooling spray for the next week in the main window of our 13th and F Sts. store.

Come and see it and maybe carry one home for the delectation of all. Regular price, \$10.00.

We have contracted for the whole of this year's remaining output and offer it for this demonstration only

With the manufacturers' guarantee of money back if not satisfied.
